Aetna Better Health® of Florida ProgenyHealth's Maternity Care Management Program

Dear Providers,

We are excited to introduce ProgenyHealth's Maternity Care Management program – an innovative program designed to support your patients and ease your workload.

The program is offered by Aetna Better Health® of Florida for their members.

How does it work?

The Maternity Care Management program supports patients before, during and after their pregnancy with the help of experienced Maternity Case Managers... at no additional cost to you or your patients.

What does the program include?

- **Case Management** – Member support from a Maternity Case Manager in collaboration with OB/GYNs via personalized care plans – from pregnancy through the first twelve months postpartum.
- **Digital App** – Reproductive health support from cycle tracking and pregnancy to postpartum and parenting
- **Return to Work** – Helping women transition back to the workplace and navigate job issues, childcare, and more.
- **Intelligent Platform** – A comprehensive medical record that drives all interventions and care pathways based on evidence-based protocols and maternal risk factors.
