August 4, 2023

## **CHANGE IN PRIOR AUTHORIZATION REQUIREMENTS**

Effective October 1, 2023, there are two CPT codes that will have a change in their prior auth requirements for par providers. The updates are part of a larger optimization initiative intended to improve operational efficiency and reduce unnecessary provider administration efforts.

### **Code No Longer Requiring Prior Auth**

Code	Code Description
92229	Imaging of retina for detection or monitoring of disease; point-of-care autonomous analysis and report, unilateral or bilateral.

### **Code Now Requiring Prior Auth**

Code	Code Description
J0598	Injection, C1 esterase inhibitor (human), Cinryze, 10 units

### **Questions?**

If you have any questions, please contact our Prior Authorization Department at 1-866-638-1232 or, contact your Provider Relations Representative.

Sincerely,  
Provider Relations Department
