

**HEDIS® Lunch and Learn**  
**Behavioral Health Follow-Up Care**

Sherry Griffith RN, BSN

April 2023

# Monthly Webinars: 30 minutes, 1 HEDIS topic

# Follow-up after Emergency Department Visit for Mental Illness (FUM)

The percentage of emergency department (ED) visits for members 6 years of age and older with a principal diagnosis of mental illness or intentional self-harm, who had a follow-up visit for mental illness. Two rates are reported:

1. The percentage of ED visits for which the member received follow-up within 30 days of the ED visit (31 total days).
2. The percentage of ED visits for which the member received follow-up within 7 days of the ED visit (8 total days).

\*\* Follow-up visits may be with **any** practitioner, with a principal diagnosis of a mental health disorder **OR** with a principal diagnosis of intentional self-harm and any diagnosis of a mental health disorder within 7 and 30 days after the ED visit.

\*\* ED visits that result in an inpatient stay are not included in the measure.

## Follow-up after Emergency Department Visit for Substance Use (FUA)

The percentage of emergency department visits for members 13 years of age and older with a principal diagnosis of Substance Use Disorder (SUD) or any diagnosis of drug overdose, who had a follow-up visit. Two rates are reported:

1. The percentage of ED visits for which the member received follow-up within 30 days of the ED visit (31 total days).
2. The percentage of ED visits for which the member received follow-up within 7 days of the ED visit (8 total days).

\*\* The diagnosis for SUD can be a principal or secondary diagnosis on the follow-up visit. SUD also includes Alcohol Use disorders.

\*\* Note: ED visits that result in an inpatient stay are not included in the measure.

# Follow-up after Hospitalization for Mental Illness (FUH)

Members 6 years of age and older in the measurement year discharged after hospitalization for treatment of selected mental illness or intentional self-harm diagnoses who had a follow-up visit with a **mental health provider**.

Two rates are reported:

1. Members who received a follow-up visit within 7 days
2. Members who received a follow-up visit within 30 days

Any of the following meet for a follow-up visit (for both 7 and 30 day rates)

- An outpatient, telehealth, or telephone visit with a mental health provider.
- An observation visit with a mental health provider.
- Transitional care management services with a mental health provider.
- A visit in a behavioral healthcare setting.
- A community mental health center visit.
- An intensive outpatient encounter or partial hospitalization.
- Electroconvulsive therapy.
- Psychiatric collaborative care management.

## NOTE:

The denominator is based on discharges, not members. Thus, if member has more than one discharge in the measurement period, they will be counted multiple times.

# Member Incentives Program:

**\$25.00 Gift Card: FUH:** Members ages **6 and older** who complete a follow-up visit within 7 days after discharge from inpatient facility (dx of mental illness) with a behavioral health care provider

....

Be sure to call Member Services at **888-348-2922** for more details and the most up-to-date information.

# Behavioral Health Follow-Up Care Challenges

## Why Gaps in Care?

- **Short measure time frames**
- **Appointment availability/wait time to schedule a follow-up appointment**
- **Transportation barriers**
- **Provider offices often closed on weekends, and FUA/FUM/FUH measure time frames include weekends**
- **Members may experience stigma for seeking additional care for mental health, self-harm and substance use issues**
- **Facilities and/or provider may be unaware of the timeframe members need to receive their follow-up appointments**
- **Lack of member support system**

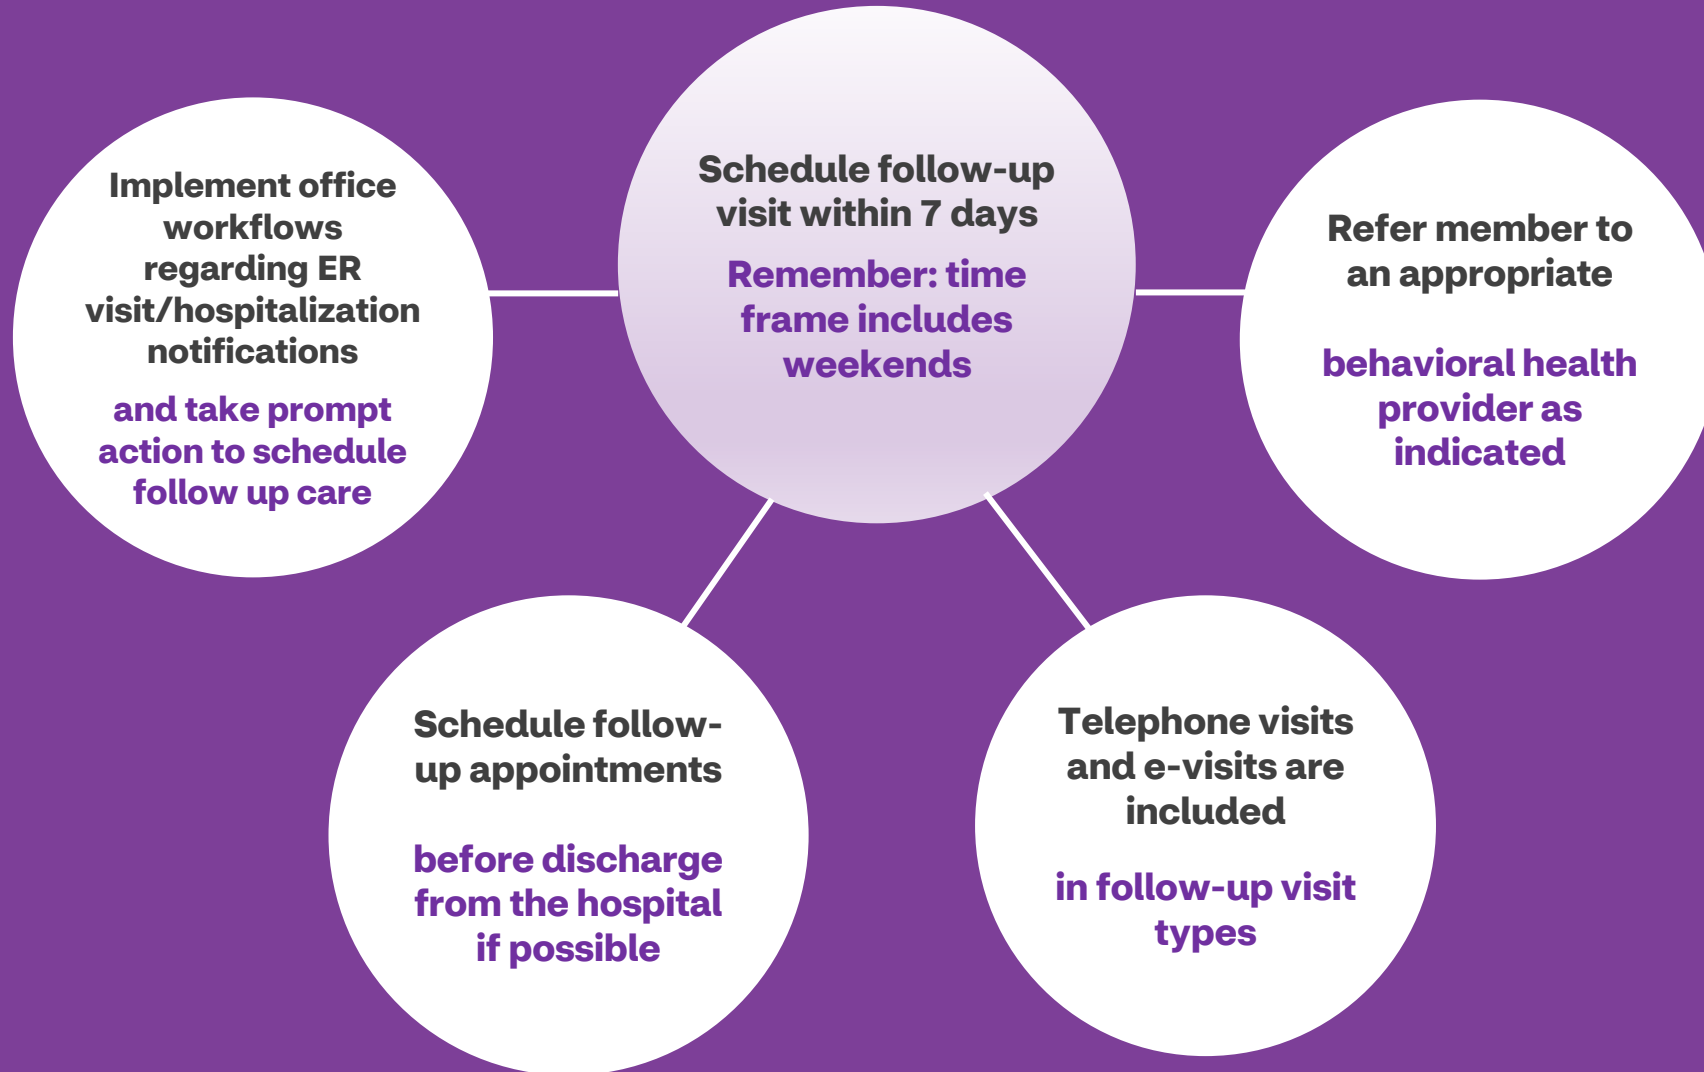

- **History of childhood traumas (ACES) – this can contribute to members being in measure, but also a barrier to seeking follow-up care**
- **Reluctance to accept there is a substance use or mental health condition**
- **Some members are transient, moving from home to home – may go to ER, but not follow-up care at provider office**
- **Alcohol use is more acceptable in societal belief systems than other Drug or Opioid use, potentially resulting in members not realizing/accepting they need follow-up care**

- **Providers potentially not aware member has been in the hospital or had ER stay, impacting timely follow-up care**
- **FUA/FUM – potential perception that follow-up visit must only be done with a mental health provider**
- **Some members may qualify for the FUA measure after an alcohol related situation that may have been an isolated incident where member does not perceive follow-up care as crucial**
- **Mental health providers possibly requiring self-referral/conversation w/member before scheduling (vs scheduling through PCP office)**

# Take-Away Actions

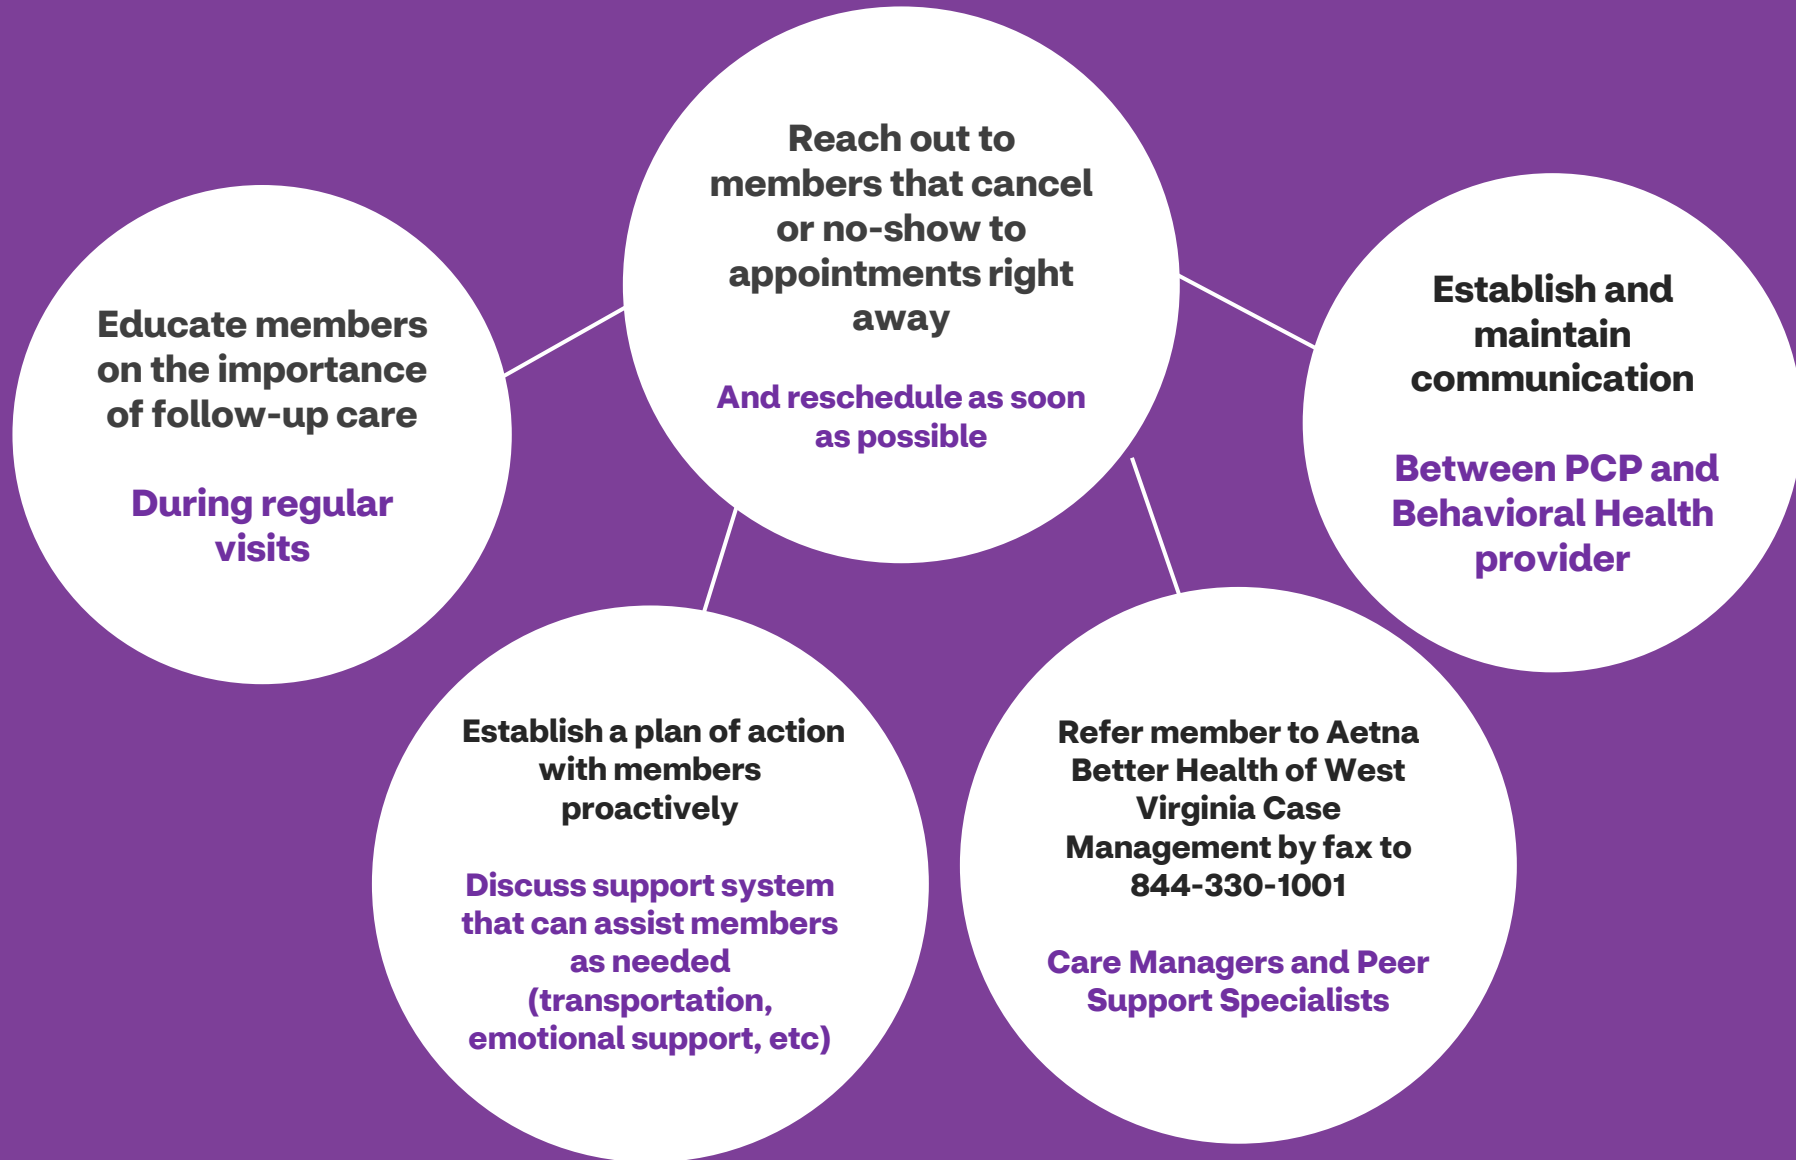

---

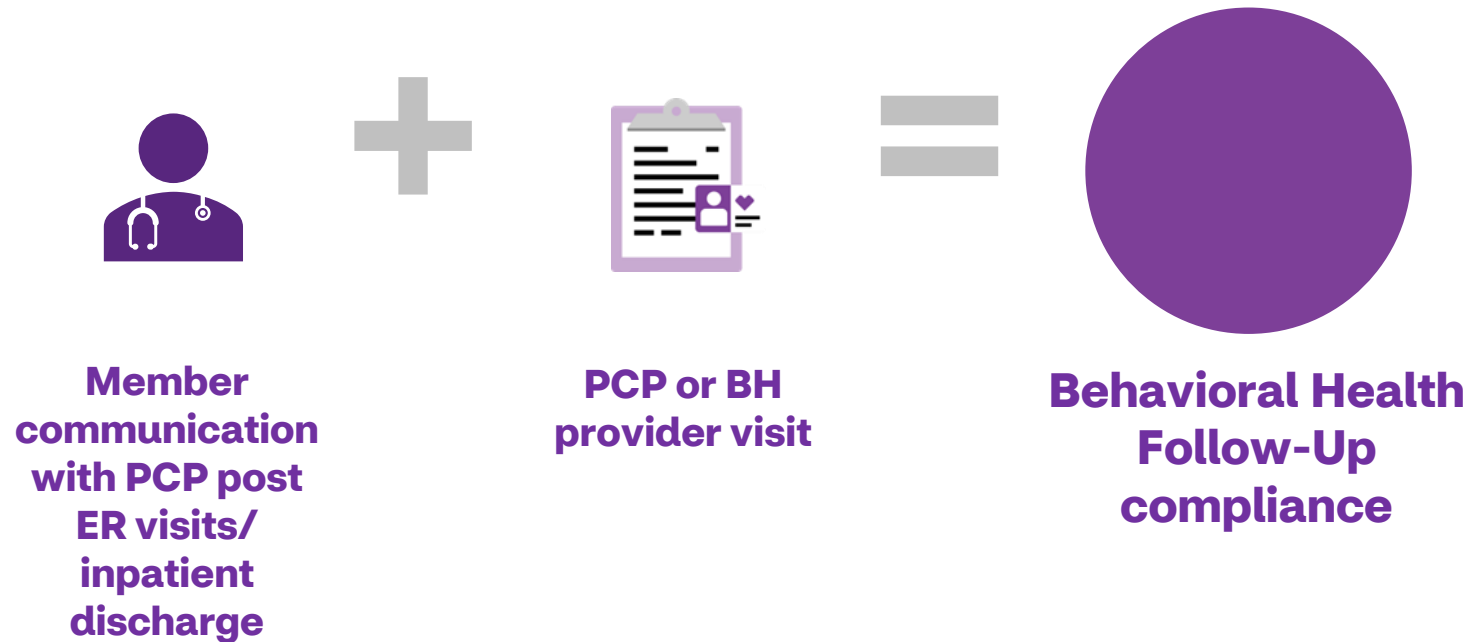

# Take-Away Actions

---

# The Power of the PCP

The PCP has a vital role in the ability to impact Behavioral Health follow-up care

The PCP office might be the catalyst for follow-up visits post ER and inpatient care

**You make a difference!**

# ABHWV website

## Provider HEDIS Section

There is a HEDIS tab within the Provider Tab on the ABHWV website. The following are available:

1. **What is HEDIS?** – a short description of HEDIS
2. **HEDIS News You Can Use** –emailed to providers each month and will be available on the website, including current and prior months
3. **HEDIS Toolkit For Provider Offices** – comprehensive document of all HEDIS measures, including a coding/billing section. This is updated annually or sooner as needed.
4. **HEDIS Lunch and Learn Webinars For Providers** – monthly webinars such as the one today. Links for past webinars and invite information for the next upcoming Lunch and Learn will be here.

# Closing Thoughts and Resources

## Members trust you!

**Members consider you a very trusted source of information and care, even when it comes to mental/behavioral health!**

**When talking to members, allow time for discussion and questions.**

**Hearing your empathy, engagement and recommendations can make a difference!**

## ABHWV Quality Partnerships
